

CE

Features

- · Supporting connection to fuel generators
- Ultra-wide input voltage range: 110V to 300Vac
- · Input power factor ≥ 0.99
- Input current harmonic distortion <4%
- Output power factor of 1
- · 50Hz/60Hz frequency conversion mode
- Emergency power-off function (EPO)
- · USB/RS-232 communication interfaces
- · LCD display panel
- Intelligent charging mode, adjustable charging current
- · 3-year warranty

6

Applications

- · Data center
- · Financial institution
- Smart Buildings
- Industrial automation

Description

ES-SU10K is a 10KVA online UPS power supply, providing rack type and tower type two appearance structures, using advanced digital control technology, combined with high integrated circuits and optimized design, enhance anti-interference ability, and ensure stable performance. The product has a full load efficiency of up to 95%, an input power factor of over 0.99, and a current harmonic of less than 4%, which can effectively prevent additional energy loss and reduce grid pollution. Its ultra-wide voltage input range is compatible with unstable power grids and fuel generators, which can easily cope with harsh power environments, reduce the need for frequent switching to battery power, and accurately match the needs of highly sensitive loads such as servers and medical equipment. In addition, the product has built-in EPO emergency power-off function and USB/RS-232 dual communication interfaces, which further strengthens the system security and remote control capabilities, It provides efficient, stable and flexible power protection solutions for key scenarios such as data centers, intelligent manufacturing, and communication base stations.

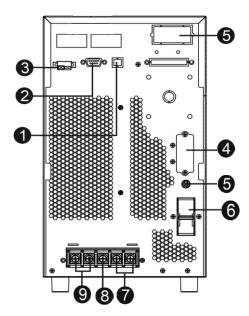

Specification		ES-SU10K-TH		ES-SU10K-RH	
INPUT					
Nominal Volta	age	110~300Vac±3% at 60% loa	ad; 176~300Vac±3% at 100	% load	
Frequency Ra	ange	46~54Hz/56~64Hz/40~70Hz(in generator mode)			
Power Factor	,	≥0.99@full load

- Derate capacity to 60% of capacity in CVCF mode
 Derate capacity to 90% when the output voltage is adjusted to 208VAC or parallel system is operated
 When using 16 pieces of balteres the outpu power factor wl be derated to 0.8.
 fuing 18 or 19 pieces of batenes, the output power factor will be derated to 0.g**
 if the UPS is installed or used in a place where the altitude is above than 1000m, the output power must be derated one percent per 100m.

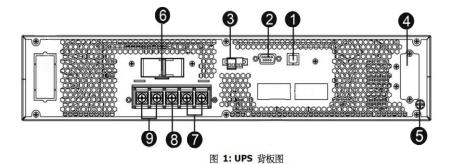

■ Mechanism Dimension

■ ES-SU10K-TH

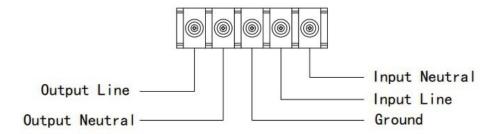

■ ES-SU10K-RH

- 1: USB communication port
- 2: RS-232 communication port
- 3: Emergency shutdown function interface
- 4: External battery connector
- 5: External battery grounding screws
- 6: Line input circuit breaker/switch
- 7: AC input terminal
- 8: Ground terminal
- 9: Output terminal

Remove the terminal block protective cover on the back panel of the UPS. Next, follow the following terminal block diagram to wiring the wire: (When wiring, connect the ground wire first.)When removing the wiring, leave the groundwire for last!)

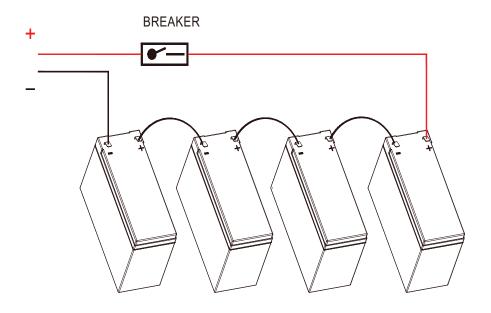

Madal	Cabling Specifications(mm²)			
Model	Input	Output	Battery	Ground
ES-SU10K	10	10	10	10

Note 1: Cables must use 10mm² or higher in order to balance safety and efficiency. Note 2: The color of the wire rod must comply with the local electrical regulations

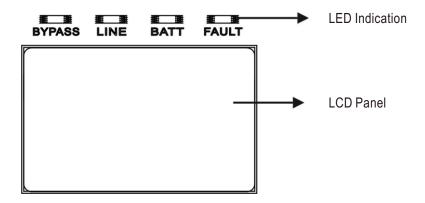

Connecting the battery: When connecting the battery box, be sure to confirm that the polarity of the battery is correctly connected.

Required specifications of circuit breaker: voltage ≥ 1.25x battery voltage / number of groups, current≥ 50A Please select the appropriate battery size and connection quantity according to the needs of the birth time and the specifications of the UPS.

■ LED Indication and LCD Panel

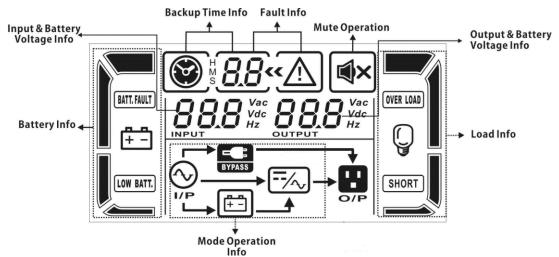

There are 4 LEDs on the front panel to show the UPS operating status:

Status (LED)	Bypass	Line	Battery	Fault
UPS Start	•	•	•	•
No Input	0	0	0	0
Bypass Mode	•	0	0	0
AC Mode	0	•	0	0
Battery Mode	0	0	•	0
CVCF Mode	0	•	0	0
Battery Testing	•	•	•	0
ECO Mode	•	•	0	0
Fault	0	0	0	•

Note: ullet means that the indicator light is on, and \circ means that the indicator light is off

■ LCD Panel

Into			
Diaplay	Function		
Backup time information			
⊗ ₹ 8.8	Indicates battery diacharge time in number H:hours, M: minutes, S: seconds		
Fault information			
« ✓♠	Indicates that the warning and fault occurs		
8.8	Indicates the fault codes		
Mute operation			
■ ×	Indicates that the UPS alarm is disabled		
Output & Input & Battery volta	•		
888 Vac OUTPUT Vac Hz	Indicates the output voltage, frequency or battery voltage Vac: output voltage, Vdc: battery voltage, Hz: frequency		
Load information			
٥	Indicates the load level by 0-25%、26-50%、51-75%、and 76-100%。		
OVER LOAD	Indicates overload		
SHORT	Indicates the load or the output is short		
Mode operation information			
I/P	Indicates the Ups connects to the mains.		
=	Indicates the battery is working		
BYPASS	Indicates the bypass circuit is working		
ECO	Indicates the ECO mode is enabled		
==/~	Indicates the Inverter circuit is working		
O/P	Indicates the output is working		

Battery information			
=	Indicates the output is working.Indicates the Battery capacity by 0-25%,26-50%,51-75%,and 76-1009		
BATT. FAULT	Indicates the battery is not connected		
LOW BATT.	Indicates low battery level and low battery voltage		
Input & Battery voltage information			
888 Vac Vdc Hz	Indicates the input voltage or frequency or battery voltage Vac: Input voltage, Vdc: battery voltage, Hz: input frequency		

■ Audible Alarm

Description	Buzzer status	Muted	
UPS status			
Bypass mode	Beeping once every 2 minutes		
Battery mode	Beeping once every 4 seconds	Yes	
Fault mode	Beeping continuously		
Warning			
Overload	Beeping twice every second	Va.	
Others	Beeping once every second	Yes	
Fault			
All	Beeping continuously	Yes	

■ Abbreviation Meaning in LCD Display

Abbreviation	Display content	Meaning
ENA	ENR	Enable
DIS	dl 5	Disable
ATO	REO	Auto
BAT	6RE	Battery
NCF	NEF	Normal mode(not CVCFmode)
CF	[F	CVCF mode
SUB	<i>5Ub</i>	Subtract
ADD	Rdd	Add
ON	00	On
OFF	OFF	Off
FBD	Fbd	Not allowed
OPN	OPN	Allow
RES	res	Reserved
OP.V	0 P.U	Output voltage
PAR	PRE	Parallel

■ Accessories List

	Object	Number
1	User Manual	1
2	Monitoring software CD-ROMs	1
3	USB cable	1
4	Computer cables	1
5	Battery cable	1
6	Vertical tripod (only Rack)	2
7	Cabinet mounting brackets (only Rack)	2
